

# We are Tesla!

## A forward thinking, dynamic company with our eyes fixed firmly on future developments in the worlds of Engineering and Science.

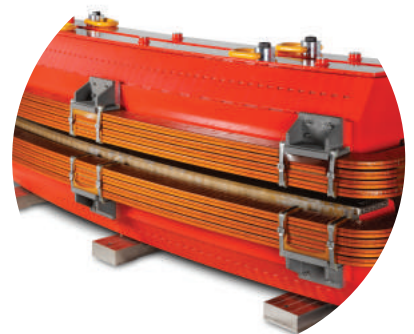

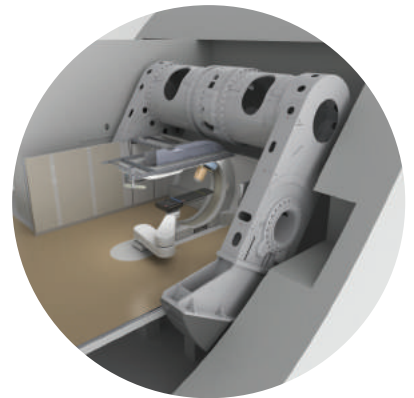

We are a long established (over 40 years) company with a proven track record of designing, developing and building cutting edge technology for medical imaging, cancer therapy, atomic particle research and clean energy.

Our employees are highly skilled, committed and motivated. Our staff are our most valuable resource and key to the success of Tesla.

If you are excited about engineering, understanding how and why things work and want to be part of the solution to many of the World's ills; through your involvement, in whatever form, in the design and build of MRI scanners, Proton Therapy machines; participating in frontier-crushing research through our provision of electromagnets for particle accelerators as well as many more exciting things in the pipeline - **you could help us to make a difference.**

### A career at Tesla will offer you:

- + Interesting and varied work
- + 25 days' holiday plus 8 bank holidays (that's more than many)
- + Group Pension Plan and Life Insurance (Company contribution after 12 months' service)
- + Employee Perks Scheme (giving you money off many things that help to make your life easier)
- + Stylish Uniform
- + A passionate bunch of people who believe in what they do
- + A great place to work

Want to join our success and help us create a better future?
